EDUCATION

MOHANLAL SUKHADIA UNIVERSITY

BTech In computer science and engineering

2022- 2026

ABOUT ME

I'm Govind Kumar, a 3rd-year B.Tech Computer Science Engineering student with a strong command of core engineering subjects. I specialize in frontend development with hands-on experience in HTML5 and CSS3, crafting clean, responsive web pages. I've built multiple projects demonstrating semantic markup, layout design, and mobile-first techniques. I'm eager to apply my technical foundation and frontend expertise to real-world development opportunities.

SKILL

- C, C++, Java, HTML, CSS, JavaScript, MySQL
- Frontend development (HTML CSS and JavaScript)
- Team Coordination

PROJECT

Developed a responsive portfolio website using HTML5 and CSS3 to showcase my skills, projects, and contact details. Focused on clean design, mobile-first layout, and accessibility to ensure a smooth and engaging user experience across all devices.

Past experience - Mobile app development program by mate academy of technical education Udaipur using react native (JavaScript framework).

COURSES

Full stack web development (mern stack) by apna college (jan 2025 to sep 2025)
